

## **AAI ENVIRONMENTAL POLICY**

AAI will strive to design and manufacture automotive products in an environmentally sound manner.

We will work to meet all federal, state, local and other regulations and/or requirements.

We will continually improve our environmental performance and strive to prevent pollution of our environment.

We will educate and train our team members to conduct their activities in an environmentally- responsible manner.

As part of our annual facility business planning process, we will review environmental objectives and targets.
